No 559

Central College, Bangalore
26th April 1901

From
The Principal,
Central College, Bangalore

To
The Secretary to the Govt of Mysore,
Genl & Rev Departments.

Sir,

I have the honor to submit for the kind consideration and orders of the Government the following matters connected with the College Hostel which the D P W department appears to be unable to attend to for what of funds but which I hope that the Governement will see to be so urgent and so deserving that they will sanction an immediate Special Grant for the purpose

1 I wrote to the Chief Engineer on the 23rd February last, now over two months ago, that it was urgently necessary to increase the Dining Room accommodation for the Brahmin resident students as they numbered about 80, while the Non-Brahmins numbered only 7 and the present make-shift arrangement - they having to take their meals as best they could by using the inner veranddahs round the court yard - will not be possible without the greatest inconvenience and even risk to the health of a large number of students during rainy season I have sent a simple plan to the Chief Engineer whereby the Dining Hall accommodation of the Brahmin Block may be sufficiently enlarged to accommodate about 80 students instead of only 50 as originally planned and at no great expense

2 The arrangements of the hearths in the two Kitchens as done by the D P W is most unsatisfactory , there being no draught to insure complete combustion of the wood fuel, a large quantity of which is in consequence converted into charcoal and practically lost while at the same time the smoke in the ~~same~~ Kitchen is so intense as to make it almost impossible for the servants to do their work This might easily be remedied at a comparatively

small cost I find that the servants have had to remove several tiles from the roof of the kitchen to allow the escape of smoke and it is obvious that this will not do in the rainy season

The waste of fuel in the Bath Rooms owing to the bad arrangements for heating the water vessels is exceedingly great and at a meeting of the Committee of Management held on the 23rd March last it was agreed that it would be infinitely better to have a small central furnace outside each of the kitchens where the water could be heated and from which it might be distributed by pipes to the three Bath Rooms in each Block.

3 No ~~arrangement~~place has been given for the storage of firewood and this will be a source of the very greatest trouble in the wet weather besides giving ample opportunity for stealing and waste of firewood The cost of a suitable place for this purpose cannot be very much

Having had no reply from ~~the~~ either the Chief Engineer or the Executive Engineer to my letter of the 23rd February last I wrote a D O to the Executive Engineer on the 17th April to which he replied "there are absolutely no funds to do any work to the Students' Hostel this year. I have provided Rs10,000 in the coming year's budget for the additions required by you In the meantime I shall send up all plans and details to you after completion I am afraid that the additions to the Dining place cannot be taken up till after June next As regards the hearths in the Kitchen a design can be worked in which would be almost smokeless I have constructed one range in the Victoria Hospital which appears to give satisfaction "

I was exceedingly disappointed to receive this letter, as it is obvious that if it cannot be done during the present dry weather holidays, it cannot be done at all till the middle of December next, as we cannot have coolies working about the Brahmin Kitchen and Dining Rooms while the students are in residence

As but a small fraction of Rs 10,000 can be required to do during the holidays the three urgent items stated above viz ,

1 Extending the Dining Room accommodation for the

3

Brahmin# students

2 Improving the hearth arrangements of the Kitchens and Bath Rooms

3 Providing a firewood store

I have the honor to request that a Special Grant of sa' Rs2500/- may be provided now for the urgent execution of these proposals

I have the honor to be,

Sir,

Your most obedient ervant,

Woods
